PRIORITY.**

POOL SAFETY TIPS

Keep children under active supervision at all times and stay in arm's reach of young kids.

Establish and enforce rules and safe behaviours, such as "no diving," "swim with a buddy" and "walk please."

Ensure everyone in the home knows how to respond to aquatic emergencies and make sure that emergency numbers are clearly seen.

Get ADN Pool Services to maintain proper chemical levels, circulation and filtration. We will regularly test and adjust the chemical levels to minimise the risk of earaches, rashes or more serious diseases.
